

ANCHOR

ENVIRONMENTAL POLICY

“We are committed to the prevention of pollution and continual improvement of our environmental performance”.

Anchor Pipework Limited ('Anchor') was established in 1983 and provides first class mechanical and electrical services, to industrial, commercial and domestic clients across the South of England, South Wales and the Midlands. We provide bespoke solutions to best suit our customer requirements, ensuring best value is achieved at all times. Offering a one-stop shop from design to installing and maintaining their mechanical and electrical systems.

Anchor Pipework Limited (Anchor) is an environmentally conscious company and as such we acknowledge the potential environmental impact that our business activities may have on the environment.

This policy has been endorsed by the Board of Directors who give their full support to its implementation. Anchor's Board of Directors, in co-ordination with the Environmental Management Representative, are responsible for communicating, implementing and maintaining this policy at all levels within Anchor.

We are committed to the prevention of pollution and continual improvement of our environmental performance. This is facilitated through Anchor's environmental objectives based on our environmental aspects. These objectives will be documented, allocated targets and periodically monitored and reviewed through 'audit programmes'. The results of which are communicated throughout Anchor and to our 'clients, suppliers, contractors, and local organisations where appropriate.'

As a company, Anchor are committed to ensuring that we:

- Meet or exceed all the environmental legislation that relates to our company
- Comply with all environmental legislation, codes of practice and guidance produced by regulatory bodies, where these relate to our environmental aspects
- Provide all staff with the necessary resources, equipment, information, instruction and training to fulfil the requirements of this policy, commensurate with their role
- Work towards implementing an environmental management system that complies with the requirements of ISO14001:2015
- Strive to integrate environmental best practice into our business operations
- Prevent pollution to the environment, by ensuring that we manage waste appropriately
- Minimise waste to landfill by reducing our waste generation and by segregating and recycling waste where economically and operationally feasible
- Co-ordinate supplier deliveries and business mileage to maximise fuel efficiency
- Identify, quantify and reduce our carbon footprint and off-set our emissions through carbon negative projects
- Ensure that the environment is considered in the procurement of goods and services. Anchor will always endeavour to procure sustainably
- Give appropriate consideration for the environment in the good and services we provide to customers
- Work together with local businesses, neighbours, partners or suppliers to encourage commitment and improvement in our local environment
- Source and promote a product range to our clients to minimise the environmental impact of such products during their operation in both domestic and commercial settings.

This policy will be communicated to all staff and organisations working for or on behalf of Anchor Pipework. Anchor Staff and other organisations are expected to co-operate and assist in the implementation of this policy, whilst ensuring that their own work, so far as is reasonably practicable, is carried out without risk to themselves, others, or the environment.

This policy will be reviewed periodically by the Board of Directors and where deemed necessary will be amended and re-issued. Previous versions of this policy will be archived and are available on request.

This policy statement is brought to the attention of all staff by being displayed on site, employee handbooks, and induction training. It is publicly available through our website, reception areas or as may be reasonably requested by any interested party.
